

Additionally, the nominee's mailing address, telephone number, and curriculum vitae must accompany the nominations. The agency cannot guarantee further consideration of nominations that do not include this requested information. Potential candidates will be asked by FDA to provide detailed information concerning such matters as financial holdings, employment, consultancies, and research grants and/or contracts to permit evaluation of possible sources of conflict of interest.

Criteria for Consumer-Nominated Members

Selection of representatives of consumer interests will be conducted through procedures that include use of a consortium of consumer organizations which has the responsibility for screening, interviewing, and recommending candidates for the agency's selection. Candidates from this group, like all other candidates for membership on the Committee, should possess appropriate qualifications to understand and contribute to the Committee's work.

Industry Representatives

Regarding nominations for members representing industry interests, a letter will be sent to each person or organization that has made a nomination and to other organizations that have expressed an interest in participating in the selection process together with a complete list of all such organizations and the nominees. The letter will state that it is the responsibility of each nominator or organization that has expressed an interest in participating in the selection process to consult with the others to provide a consensus slate of possible members representing industry interests within 60 days. In the event that a slate of nominees has not been provided within 60 days, the agency will select an industry representative for each such vacancy from the entire list of industry nominees to avoid delay or disruption of the work of the Committee. The agency is particularly interested in nominees that possess the essential scientific credentials needed to participate fully and knowledgeably in the Committee's deliberations. In addition to this expertise, the agency believes that it would be an advantage to the Committee's work if the individual(s) had special insight and direct experience into specific industrywide issues, practices, and concerns that might not otherwise be available to others not similarly situated.

This notice is issued under the Federal Advisory Committee Act (5 U.S.C. app. 2) and 21 CFR part 14, relating to advisory committees.
